Where Shakespeare Was Wrong.

"Romeo and Juliet" ends too cruelly. Shakespeare ought to have had a ship in waiting to carry the lovers to a distant clime immediately on "Juliet's" exit from the tomb. Then the friar ought to have found "Romeo" and told him that he (the friar) had given "Juliet" a potion to put her in a deep sleep, the counterfeit of death, and that he "Romeo" had better hang around the tomb and be ready the moment "Juliet" waked up to fly with her. But all these precautions were neglected, and the friar stands in a measure responsible for the death of "Romeo" and "Juliet."

We don't blame "Romeo" for sticking his sword through the "County Paris." "Paris" wanted to have "Romeo" arrested and put in the cooler so he could have "Juliet" all to himself. It is just possible that "Romeo" saw through "Paris" little game, and promptly put his sword through him for it.

If some manager would fix the play up as we have suggested, and have "Romeo" and "Juliet" march on board ship and leave for a foreign shore to the music of a brass band, it would be delightful. As "Romeo and Juliet" ends now it is horrible—intensely awful. [Wichita News.]

The Pump That Cost \$1,000,000.

The largest pumping engine in the world is that at Friedensburg, Pa., used to pump water out of a zinc mine. It was built at Merrick's foundry, Philadelphia, in 1870, at a cost of nearly \$1,000,000. Its parts were so heavy that all the bridges along the line of the North Pennsylvania Railroad, from Philadelphia to Center Valley, were strengthened to insure against accident. Its cylinder has a diameter of 110 inches; the piston rod is fourteen inches in diameter. It has a stroke of twelve feet, and in one minute forces over 20,000 gallons of water, or 30,000,000 gallons daily, out of the mine to a height of 130 feet.

What True Merit Will Do.

The unprecedented sale of "Boschee's German Syrup" within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds, and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected, and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctors' bills and a long spell of tedious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles. nov29yl

When baby was sick, we gave her Castoria,
When she was a Child she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

Ayer's Sarsaparilla is the best medicine for everyone in spring. Eruptions and travelers will find it an effectual cure for the eruptions, boils, pimples, eczema, etc., that break out on the skin—the effect of disorder in the blood, caused by sea diet and life on board ship.

He who wants hope is the poorest man alive.

Dr. Flint's Heart Remedy has saved more lives by timely use, and has kept from suicide or the insane asylum more victims of nervous disorders, than all the physicians with their pet methods of treatment. At druggists, 50c. Description of the medicine with each bottle. Address J. J. Mack & Co., S. F.

\$500 Not Called For
It seems strange that it is necessary to persuade men that you can cure their disease by offering a premium to the man who fails to receive a benefit. And yet the case and remedy cured thousands of cases of obstructed catarrh with his "Catarrh Remedy" who would have never applied to him, if it had not been for his offer of the above sum for a curable case. Who is the next bidder for cure or cash.

A Wonderful Freak of Nature
Is sometimes exhibited in a public exhibition. When we came upon some of the peculiar freaks of nature on the occasion of our visit to the exhibition, we were struck by the creation of a man, who is a fearful and wonderful sight. The myriads of his nature have been arrayed by Dr. R. V. Pierce of St. Paul, and through his knowledge of these myriads he has been able to prepare his "Golden Medical Discovery," which is a specific for a blood in its, poison, and humors, such as scrofula, pimples, eruptions, swellings, tumors, ulcers and kindred affections. By druggists.

A Bannana Mine.
Of health is to be found in Dr. R. V. Pierce's "Fruitful Prescription," to the merits of which, as a remedy for a weak and kindred affections, thousands testify.

A CHILD'S SKIN,

Ears and Scalp Covered with Eczema us Scabs and Sores Cured by Cuticura.

MY LITTLE SON, AGED EIGHT years, has been afflicted with Eczema of the scalp, and at times a great portion of the body, ever since he was two years old. It began in his ears, and extended to his scalp, which became covered with scabs and sores, and from which a sticky fluid poured out, causing intense itching and distress, and leaving his hair matted and lifeless. Underneath these scabs the skin was raw, like a piece of beefsteak. Gradually the hair came out and was destroyed, until but a small patch was left at the back of the head. My friends in Peabody know how my little boy has suffered. At night he would scratch his head until his pillow was covered with blood. I used to tie his hands behind him, and in many ways tried to prevent his scratching; but it was no use, he would scratch. I took him to the hospital and to the best physicians in Peabody without success. About this time some friends, who had been cured by the CUTICURA REMEDIES prevailed upon me to try them. I began to use them on the 15th of January last. In seven months every particle of the disease was removed. Not a spot or scab remains on his scalp to tell the story of his suffering. His hair has returned and is thick and strong, and his scalp as sweet and clean as any child's in the world. I cannot say enough to express my gratitude for this wonderful cure by the CUTICURA REMEDIES, and with all similarly afflicted to know that my statement is true and without exaggeration. CHAS. McKAY, Oct. 6, 1885. Peabody, Mass.

I have seen Mr. McKAY's boy when badly afflicted with the eczema. He was a pitiful sight to look at. I know that he has tried our best physicians, and did all a father could do to for a suffering child, but availed nothing. I know that the statements he has made you are true and the curing of his boy by your CUTICURA REMEDIES, are true in every particular. WILLIAM J. MCCARTHY, 33 Foster Street, Peabody, Mass.

As railroad securities advanced in value upon the signing of the Interstate Commerce bill by the President, it is fair to assume that railroad investors are becoming convinced of the advantages of governmental regulation of interstate traffic. In every State in which publicity of rates and the short-haul principle have been applied the net earnings of the railroad companies have been increased and an impetus given to the construction of new railroads. Figures from thirteen States of the Union are the authority for this statement. It is therefore reasonable to expect that the enforcement of the Interstate Commerce law will exercise a beneficent influence upon the railway interest, and secure to the companies that certainty and permanency of rates which the pools were designed to bring about, but which they have signally failed to accomplish. The short-haul and publicity clauses, if not interfered with by the new Commissioners, would stop the sudden and violent fluctuations of rates that have marked the present policy of the railroad companies, and would tend to bring about that ideal system of transportation which Charles Francis Adams pictured as "at once reasonable, equitable and certain—permitting traffic to flow and interchanges to be made just how and where the interests of buyer and seller dictate—never discriminating—rarely, and then only slowly, fluctuating."

George W. Baker, one of the active members of the Third House of the Legislature from Eureka county, is stumping Eastern Nevada in the interest of the proposed Elko and Idaho railway. A number of Elkoites do not favor the scheme as presented to them. Says the Independent: "Suppose that the Elko & Idaho railway is built, and that eighty miles of it lie in Elko county. Suppose that it is assessed for taxation at \$14,000 per mile, and that the taxes are paid promptly every year. Suppose that the rate of taxation should remain as it does now, sixty-seven cents on each one hundred dollars valuation, aside from the State tax of ninety cents, and the school tax of thirty-three cents. Suppose Elko county should issue bonds in aid of said road to the extent of \$3,000 per mile, said bonds to draw interest at the rate of three per cent. per annum; the taxes on the road would liquidate the debt in seven hundred and eighty-nine years, five months and twenty days. If you doubt this proposition, just spend a few minutes in figuring on it."

Colonel Otis, of the Los Angeles Times, evidently believes that he has found the lost Atlantis, the home of the blessed. Of the City of the Angels he says: "Here shall the American Homer sing and the R phael of the future be born; and here another Socrates, sitting beneath the orange and palm, dispense the wisdom of his philosophy; and here, beneath the shadow of these uplifted mountains, shall the statesman of the future enunciate the sublimest principles of a free and sovereign people. Swarming millions shall populate this wide domain, and the star of empire shine gloriously above the Western sky." The people of Los Angeles, we observe, are discussing the question of increasing the present indebtedness from \$500,000 to \$5,000,000. That may make "the American Homer" who pays the future taxes sing a different song. But the fact remains that the City of Angels needs sewers and other city improvements, and must have them.

The bill to reimburse W. M. Haveron for expenses incurred as Commissioner of this State at the New Orleans Exposition should pass.

By a vote of 82 to 25 the Missouri Assembly has passed a bill prohibiting State officers from accepting free railroad passes.

CONGRESSIONAL MATTERS

Sherman Resigns as President of the Senate.

COLORADO STOCK INTERESTS

The Septennate Party Successful in the German Elections.

[FRESH DISPATCHES TO THE GAZETTE]

Sherman's Resignation as President of the Senate.

WASHINGTON, February 22. Senator John Sherman to-day resigned his office of President pro tempore of the Senate in order to give that body an opportunity to elect a new officer whose term does not expire on March 4, as does Senator Sherman's.

There is an impression abroad that either Senator Hoar or Senator Ingalls will be selected to succeed Senator Sherman as President of the Senate. It is not known that either is a candidate for the honor, and the impression has for a basis only the informal preliminary talks of this afternoon among Senators. In addition to their well-known standing and their long experience both are expert parliamentarians. It is thought that the Senator selected will fill the position not merely during the recess but during the next Congress.

Congressional Proceedings.

WASHINGTON, February 23.

An adverse report was yesterday ordered by the Senate Finance committee on Senator Beck's bill to provide for the retirement of U. S. legal tender national bank notes of small denominations, and the issue of coin certificates in the place of the outstanding silver and gold certificates. The bill also requires the Secretary of the Treasury to issue these certificates in denominations of \$1, \$2 and \$5, on all surplus coin and gold bullion held by the Treasury as the property of the United States, in excess of \$100,000,000 of gold and silver coin and gold bullion, and to pay out the same in discharge of government obligations except such as are made payable expressly in gold and silver coin. After the action of the committee, Senator Beck gave notice that he would call the bill up in the Senate at the first opportunity.

The San Francisco Postoffice.

WASHINGTON, February 22.

It has been said that the great obstacle to passing the bill in the House appropriating \$350,000 for a postoffice in San Francisco was Holman, of Indiana, who threatened to object. Jesse D. Carr has called upon Holmes and explained to him the exact condition of affairs. He said that the business center of the city had gone south fully half a mile from the present postoffice site, and that the ground now occupied by the postoffice is all made-land. Holman finally agreed not only to make no objection, but, on the other hand, to aid the passage of the bill. He said that he would introduce Mr. Carr to Dilzie, of Georgia, who is Chairman of the Committee on Postoffices and Postroads, and help him to get the bill up.

Not as Bad as Reported.

DENVER, Colo., February 23.

The reports received at the office of the Colorado Cattle Growers' Association indicate that from south of Montana to the Gulf of Mexico, the cattle have wintered better than for years. The reports from Western Canada also show that the cattle have not suffered more than usual. A prominent Montana cattleman yesterday said: "It is expected that losses will occur in some portions of the Territory where the grass is short, but the losses as reported by some eastern papers are greatly exaggerated. All danger to range cattle is now over and the cattlemen are looking forward to a year of prosperity."

Knights of Labor.

TRIOY, N. Y., February 23.

A State convention of the Knights of Labor was held here yesterday. Two delegates were present from each District Assembly. The convention is not for the purpose of forming another State workingmen's assembly, but to discuss matters pertaining to the Knights of Labor and to solidify the order in the States. The convention may decide to agitate the question of forming another State assembly of the order.

Died of Paralysis.

WASHINGTON, February 23.

Mrs. Lydia McLane Johnston, wife of Joseph E. Johnston, Commissioner of Railroads, died at her residence in this city yesterday morning of paralysis.

FOREIGN DISPATCHES

Severe Earthquake Shocks.

ROME, February 23.

Two shocks of an earthquake were felt at Nice at 6 this morning. The houses rocked, walls cracked, and in some cases, frail tenements were thrown to the ground. The people rushed from their houses and fell upon their knees in the streets, praying for deliverance from certain death.

Visitors to the city have become thoroughly frightened and are leaving the place. Many persons were injured by falling debris. Much alarm is felt lest there be a recurrence of the shocks. The Prince of Wales, who was in Nice a few days ago, witnessing the festivities which precede the lenten season, had taken his departure and was safe at Monte Carlo and Monaco, at which places they were so severe that rocks were detached from the cliffs and precipitated into the sea. The disturbances extended as far as Genoa.

LONDON, February 24.

Further dispatches concerning the earthquakes in the south of Europe this morning state that two violent shocks were felt at Toulon at 6 o'clock; the first shock was of 15 seconds' duration and the second of 12 seconds'. The movement was from west to east. At Cannes, three shocks were felt at the same hour. The first shock, which was very violent, lasted for one minute, but the second and third shocks were not so heavy. Many persons at this place rushed to the seashore for safety. Nobody was injured. At Avignon, three shocks were experienced between 6 and 8 o'clock. The first was very severe, and awakened everybody in the place. Several shocks were felt at Geneva at 6 o'clock. 2:30 P. M.—A dispatch from Nice, dated at noon to-day, says many casualties were caused by the earthquake this morning. The people are panic stricken and the entire population is in the streets. The railway station is besieged with visitors who are anxious to leave.

PARIS, February 23.

Two houses, one in St. Etienne street and one in St. Philippe street and Madison Bourke were destroyed by the earthquake. Three persons are buried in the ruins of these buildings.

A Large Conservative Loss.

TORONTO, February 23.

The returns received up to midnight last night, show that 99 Conservatives, 79 Liberals and four Independents have been elected. Sir John McDonald has been elected for two constituents. All the Cabinet ministers are re-elected. A number of places are yet to be heard from, but Sir John McDonald's government will probably be sustained by from 10 to 15 majority. In the old House, the government had a majority of 76. Hon. Edward Blake, Sir Richard Cartwright and Hon. Peter Michael, leading oppositionists, are re-elected. The contest was keen and exciting, but passed off quietly.

In the Dominion elections up to 10 P. M. last night, 111 constituencies had been heard from, 62 of which return Conservatives and 49 Liberals.

The German Election.

BERLIN, February 23.

The National Zeitung commenting upon the election, says the results so far as known, give promise of a brilliant septennate victory. The results ascertained yesterday, include 26 seats won from the Reichstag majority of January 14, while the National Liberals have wrested from their opponents 23 districts, of which 12 were lost by the New German Liberals, 3 by the Centrists, 3 by the Socialists, and 3 by the Democrats. The New German Liberals have veritably suffered a crushing defeat.

I. F. M.—At this hour the results in 32 districts are known. The candidates elected include 170 Septennates and 103 opponents of the Government.

The Disputed Territory.

PARIS, February 23.

The newspapers of this city are turbulent over the result of the election in Alsace-Lorraine. They say Germany is not able to obtain the hearts of the inhabitants of the annexed provinces.

BERLIN, February 23.

The National Zeitung commenting on the elections, says foreigners will now see how mistaken they were regarding the vote on the army bill in the Reichstag last January, as expressing the German public opinion.

WESTERN DISPATCHES

Mormon News.

SALT LAKE, February 23.

Levi J. Taylor of Harrisville, near Ogden, arrested for unlawful cohabitation, waived an examination and was held in \$1,200 bonds.

Early yesterday morning Wm. Reese, while working in an upraise of the 400 level of the Ontario mine, loosened earth which fell either on him or the plank he was standing on, precipitating him to the 500 level, where he was found soon after, dead. John R. Barnes and Wm. Blood, cohorts of Kayaville, who were arrested during Monday night and brought here yesterday, admitted their guilt before the United States Commissioner and held under \$1,500 bonds each.

The Season of Lent.

To-day is Ash Wednesday, the commencement of the Lenten season. The devout are supposed to cast aside all thoughts bordering on festivity and pass the 40 days and nights in pious contemplation. Whether this will be done or not remains to be seen. Easter falls on April 10th. The period of Lent includes 40 days, exclusive of Sundays, which are not counted as fast days. This makes Ash Wednesday, which is the overture of the fast, really the 46th day before Easter, including the six intervening Sundays.

An Open Letter from Rev. Henry Aston.

Mr. Editor—Will you permit us to say through your paper in connection with the report of Prof. McCammon, herein given, that we desire to return our most heartfelt thanks in behalf of the society to the many friends who have so cheerfully and liberally contributed to the improvements of the Methodist church and parsonage, as referred to in said report. We also hereby return our sincere thanks to the many friends of both the church and city of Reno for their kind words of friendship, their expressed regrets at our leaving and their good wishes for our prosperity as pastor in Virginia City.

We wish to say in this public manner that you may be assured that such good wishes are reciprocated. For we can honestly say that we never served a people with more pleasure, and never found a people more genial, kind, forbearing, willing and harmonious in all the departments of the church and Sabbath school, and never more universal in their expressed regrets in our leaving, nor have we ever parted with more feeling of reluctance, in severing relations of such friends and friendships; and we only surrendered our preferences to return for another year to Reno for the pure and unselfish purpose to conserve the general interests of the Mission. We also wish to say that we tried to do our best for Reno. We both brought forth our matured experience, our gathered harvests, our best energies, our most earnest prayers, our most faithful pastoral and pulpit work of over a quarter of a century in the ministry, spending three months each Winter almost nightly and afternoons for the pure motive of uplifting the souls and lives of the people to God in love and worship, as the essential preparation for His worship around His Throne in Heaven and not without success, as the contest between the conditions of things in the society at our coming and leaving might prove.

Permit us to say further that we were always ready to sympathize with you in all your afflictions, to pray with you and you families at your homes, and we do hereby testify that throughout our pastorate among you we always received from you without exception a warm welcome and marked cordiality. But your "farewell reception" with a well filled church and finely apportioned table furnished by the ladies, the many kind words, the hearty shaking of hands, the universally expressed regrets and good wishes at parting, the beautiful and most successful musical and literary entertainment by Mrs. McKee will dwell in mind and heart as one of the most precious and delightful reminiscences of our ministry, considering circumstances and members. And we are happy to say that neither the parish as such, including community and church, nor we ourselves have done anything since, knowingly, to mar or forfeit this friendship. Therefore, we most earnestly pray that it may continue all through life and may be renewed and perpetuated in the near "next by and bye." We are sincerely and truly yours,

CATHERINE AND HENRY ASTON.

P. S.—We regret that this "open letter" has been so long delayed, but we desired to connect it with the statement of church improvements and your subscriptions. And you will exonerate us, as you will see by the said report that we are not responsible for this delay nor for any evil results it may have caused.

H. A.

REPORT.

The committee appointed by the Presiding Elder of the Nevada mission and the Rev. Henry Aston, former pastor of the M. E. Church of Reno, to audit said pastor's accounts of improvements made on church property during 1885 and 1886, hereby reports that after a careful examination of all itemized entries of expenditures and receipts, he finds them minute and definite and the copies and balances of the original papers correct. The expenditures for improvements from April, 1885, to September, 1886, amounted to more than \$688, as the report of the pastor shows and as given in his accounts, a copy of which I have in my possession. As the said pastor superintended the paying of all bills for labor and materials, thus freeing the society and creditors from all trouble in their settlement, he certainly deserves the thanks of both the society and the committee; for such improvements cannot fail to speak well for and help onward in prosperity any church or city. J. W. McCAMMON, Committee.

SOMETHING NEW.

More than two-thirds of the Expense of putting up and Feeding Hay Saved by CLIMAX RAKE, CLIMAX LOADER, CLIMAX STACKER, CLIMAX HAY RACK, with attachments for unloading into feed racks.

FOR HANDLING HAY OR GRAIN, the Climax Machines excel all others by a great odds. Each and all of these inventions are warranted to do all claimed for them. They are no experiment, but HAVE BEEN TRIED AND TESTED by the nation, work of hundreds, and received the unqualified endorsement of all.

DAYTON, NEVADA, FEBRUARY 5, 1887. This is to certify that last season we used the Climax Stacker in putting up 1500 tons of hay, mostly blue joint; that it did its work well, and in my estimation is not equalled by any stacker or hay-lifting appliance on this coast.

PERSONAL.

Hank Smith, the old time mining superintendent, is on the comstock.

It is said that Mrs. Mackay will be one of the highest bidders at the coming sale of the French crown jewels.

Mrs. Tibbits, of Carson, who went below recently with the remains of her sister, returned this morning.

Mrs. Judge Bigelow arrived here from Elko Monday evening. It is the intention of the Judge, we understand, to reside here shortly.

Frank Chateaufort, a jeweler, and Alec McCone, a foundryman, both of Virginia City, were among the arrivals from the Bay this morning.

Alf Harris, a dry goods merchant of Eureka, passed through Reno on last night's express train for San Francisco, where he went to bury his wife, who died there on Sunday morning after a long illness.

James T. Plant, agent for the large New York house of W. H. Hooker & Co., paid the GAZETTE office a pleasant visit this afternoon. Mr. Plant is an extensive traveler, a close observer and has an excellent opinion of Reno's future.

Lindsey's Marble Quarry.

W. E. Lindsey came in from his marble quarry Monday evening and returned there this morning.

The quarry is located in Antelope Valley, Mono county, Cal., about 50 miles southwest of Carson. It consists of a ledge 340 feet wide and 10,500 feet long. Thus far Mr. Lindsey has sunk but 15 feet on the ledge, and in one place he stripped it a distance of 40 feet.

While in Reno yesterday he showed a GAZETTE reporter a box full of specimens of the marble, that comprise 14 colors. Two specimens are of onyx, similar to that found in Mexico. One of them was taken out near the surface, the other at a depth of 15 feet. The latter, especially, is very pretty and of fine grain. The black and white, mountain dark, mottled blue and other colors are also rare and of excellent quality for practical uses. Small streaks of sand, he says, separate, as a rule, the different colored marble, although they have been found to run into one another in places. Of the 25 or 30 specimens that he exhibited yesterday, none of them showed any traces of water soaking into them, and all of them were impervious to ink.

During next week Mr. Lindsey will ship 30 tons of the marble to his works in Reno. The principal part of the shipment is a huge piece already quarried four by four and a half feet square and 16 feet long. In color it is mottled blue, and it weighs about 25 tons.

Matters in White Pine County.

W. N. McGill, of Steptoe Valley, White Pine county, was in town last evening, and left for home on this morning's express train. He reports times quiet at Taylor. On account of the cold weather and the freezing up of the water power, no work is being done at the Monitor mill. About 125 miners are employed at present in the Argus and Monitor mines. He reports the outlook for big mining operations there and at Osceola this spring as good.

FREMONT'S TRAIL.

Scenes Beheld, and Hardships Endured Between Oregon and California.

The following extract from Mr. Bauerhoff's, "History of the Pacific States," relating to Fremont's explorations is particularly interesting: On the 25th of November 1843, the company of 25 men started from the Dalles. Fremont's intention was to explore Flamath or Klamath lake, thence to go south-east to a reported lake called Mary's, at some days' journey in the great basin; and thence still on southeast to the reputed Buena Ventura river, flowing from the Rocky Mountains to the Bay of San Francisco; then to the head waters of the Arkansas, to Bent's Fort, and home, there being no intention of crossing the Sierras into the Californian valleys at all. Following up the trail River, they reached Klamath marsh, mistaken for the lake of that name, on December 10th; discovered and named in succession, Summer, Albert, and Christmas lakes; and always in search of Mary lake, or the sink of the Humboldt, they reached and named Pyramid lake on January 10th, 1844, its salmon trout supplying a welcome feast. For one day, January 16th, they followed up the Salmon Trout, now Truckee, to its bend, and then kept on southward in quest of the mythical San Buena Ventura. It was on the 18th, on what is now the Carson river, that Fremont resolved to cross the Sierras into the Sacramento Valley, the condition of his animals feet not warranting an attempt to cross the country eastward. Seeking a pass, but ever loath to enter the forbidding snow, the explorers kept on southward far up nearly to the region of the modern Bodie; and then, turning to the northwest, and being forced to abandon on the way a brass howitzer which they had brought thus far, they returned to Carson river, which they supposed to be the Truckee. From the second to the end of February the travelers struggled desperately over the mountains and through the deep snow, Fremont and Pruess getting a view of the mountain lake, since called Tahoe, on the 14th. The pass corresponding somewhat with the Carson Canon and Johnson Pass of later maps, was farther north than those by which Walker in 1833 and Bartleson in 1841 had crossed; and the season was more unfavorable; so that this was really the most perilous crossing of the Sierras that had yet been effected. Fortunately no lives were lost, though the suffering was great. Two men became insane for a time, and 33 out of 67 horses and mules were lost or killed for food. Six days march down the south branch of the American river brought Fremont and part of his men to Settler's Fort, where all arrived the 8th of March.

To night's Play.

In speaking of the play to be presented at the Nevada Theater this evening, the New York Herald said: William Carleton's last and posthumous play, the Russian drama Zitka, had its initial production at the People's Theatre last evening. It proved a success of the most decided kind, and the unfortunate dramatist's little daughter, whose sole heritage it is, can be quite content with her fortune. There was an audience of good size, which was most enthusiastic in its demonstrations of approval, and the curtain was raised and the principal performers called before it again and again. The piece had the advantage of a most capable cast, and Manager Miner has consumed it with both richness and taste. The scenery was excellent. Zitka is well written. The interesting and dramatic story is well worked out, the play is rapid and the situations effective and sometimes powerful. The scene at the end of the second act, where the kidnapped heroine points out her betrayer to the Czar, is a remarkably strong one, and the curtain fell on it amid the wildest kind of enthusiasm.

A Delayed Train.

The Virginia & Truckee express train did not leave Reno this morning until half past 10 o'clock on account of the snow drifting onto the track between Lake View and Franktown. As soon as the condition of the road was learned at Carson a snow-plow was started out. It did not reach Reno until about the hour named.

Disappointed Carpenters.

On account of a delay on the Central Pacific, caused by the falling of the snow sheds last Sunday night, the Levick-Batchelder comedy troupe was obliged to cancel their Carson engagement, where over 200 reserved seat tickets had been sold.

Gold Iron Bits.

"An Experienced Horseman" in the Kentucky Live Stock Record reminds those who have the handling of horses of the cruelty of which they may be carelessly guilty: "Let any one who has the care of a horse these cold, frosty mornings, deliberately grasp in his hand a piece of iron; indeed, let him touch it to the tip of his tongue, and let him thrust the bit into the mouth of the horse if he has the heart to do it. The horse is of a nervous organization. His mouth is formed of delicate glands and tissues. The temperature of the blood is the same as in the human being, and, as in man, the mouth is the warmest part of the body. Imagine, we repeat, the irritation that would be to the human, and if not the same degree, still the suffering to the animal is very great. And it is not a momentary pain. Food is eaten with difficulty, and the irritation repeated day after day, causes loss of appetite and strength. Many a horse has become worthless from no other cause but this. Before India rubber bits were to be had I myself used a bit covered with leather, and on no account would have dispensed with it in freezing weather."

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pluniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

Ladies

In delicate health and all who suffer from habitual constipation, will find the pleasant California liquid fruit remedy, Syrup of Figs, more easily taken, and more beneficial in effects than any other remedy. LEGAL.

Summons.

IN THE DISTRICT COURT OF THE Seventh Judicial District of the State of Nevada, in and for the county of Washoe.

The State of Nevada sends to Robert Heene greeting: You are required to appear in an action commenced against you as defendant, by the Central Pacific Railroad Company, as plaintiff, in the District Court of the Seventh Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment for the sum of four hundred and fifty and 50-100 (450 50) dollars for fourth, fifth, sixth and seventh years interest on the remainder of purchase money, and for the remainder of purchase money arising out of a certain contract with said company, plaintiff, to purchase the E. & S. of the SE 1/4 of sec. 15, T. 19, N. R. 19 E., M. D. B. and M., Washoe county, Nevada, containing 50 acres, said contract entered into Sept. 13, 1880; that you are required to pay said sum within 30 days from rendition of judgment, and in case of failure to pay within said 30 days, that the said contract be declared null and void, and that you, defendant, and all persons holding under said contract be forever barred and foreclosed of all right to conveyance thereunder, and that the plaintiff be let into the possession of said premises and for costs herein, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, T. V. Julian, have hereunto set my hand and affixed the seal of said Court, this 9th day of November, A. D. 1886.

T. V. JULIAN, Clerk of the District Court of the Seventh Judicial District, Nevada, in and for Washoe County.

Joe. D. Redding, Attorney for plaintiff.

Petition for Order Directing a Sale of Real Estate.

IN THE DISTRICT COURT FOR THE State of Nevada, in and for the county of Washoe.

In the matter of the estate of M. C. Lake, deceased.

The petition of Charles T. Bender, administrator of said estate, having been submitted to me by said administrator, and upon examination thereof, I believe it necessary to set aside some portion of the real property belonging to said estate of M. C. Lake, deceased, for the purpose of paying debts and costs of administration against said estate remaining unpaid. It is therefore ordered that all persons interested in said estate be and appear before said Court at the Court-room at Reno, in said county of Washoe, at 10 o'clock in the forenoon, on the

22d day of March, 1887.

Or as soon thereafter as said petition can be heard, for the purpose of showing cause, if any they have, why the prayer of said petition should not be granted, and an order made authorizing and directing a sale of a portion of the real property of said estate for the purposes above mentioned as shall be necessary.

The foregoing order is made this 19th day of February, A. D. 1887, at Judicial Chambers at Reno, in said county.

R. R. BIGELOW, District Judge.

Assessment Notice.

ORR WATER DITCH COMPANY.—Notice is hereby given that at a meeting of the Board of Trustees of the Orr Water Ditch Co., held at the 12th day of February 1887, an assessment of No. 37 of \$3.00 per share was levied upon each and every share of the capital stock of the company, payable immediately in U. S. gold coin to the Treasurer, at the First National Bank of Reno. Any stock upon which said assessment shall remain unpaid on the

12th day of March, 1887, will be declared delinquent and advertised for sale at public auction, and unless payment is made upon said advertisement so advertised, the same will be sold by the Secretary at the office of the company, "Chambers' Building, Virginia street, Reno, Nevada, on Tuesday, the 12th day of April, 1887, at 1 o'clock, P. M. of that day, to pay said delinquent assessments and expenses of sale. By order of the Board of Trustees,

PIERCE EVANS, Secretary.

Stockholders' Meeting.

THE ANNUAL MEETING OF THE Stockholders of the Reno Smelting, Milling and Reduction Works, will be held at their office in Reno, Nevada, on Monday, the 7th day of March 1887.

At 7 o'clock, p. m., for the election of officers for the ensuing year, and for the transaction of such other business as may properly be presented.

JOHN HOWELL, Pres. WM. THOMPSON, Secy. Reno, Nevada, January 31, 188
